

Presentation of the extended game world

We are deeply proud of our unprecedented extensions in CryptoHorse - City.
Rush quickly to the race boxes and do not forget the horseshoe.

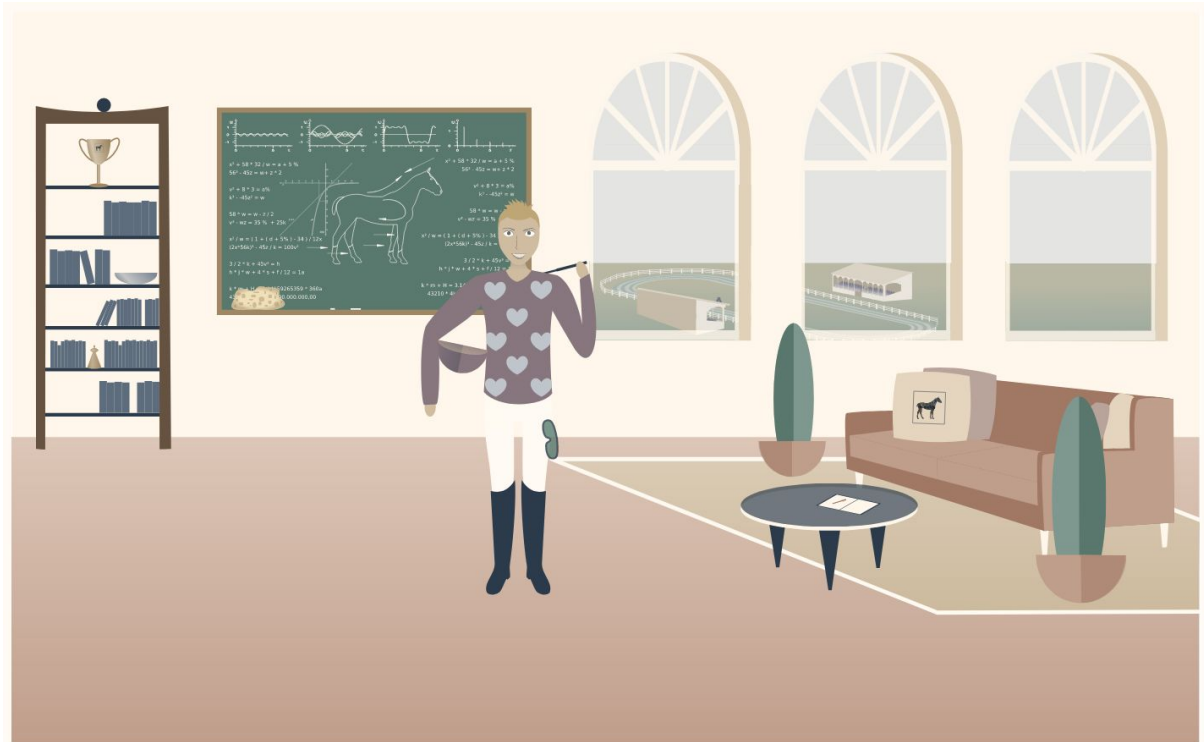

The first jockeys are at your service in the Jockey Club and can be purchased there.
These days we coden the noble saddles for your horse.
Thanks to the Long-Distance Race, 1 vs 1, or the Big Derbies up to the World Cup, there is the right race for every horse.
Full of fascination we follow the current development of our blockchain based weather.
